GREENBANK COMMUNITY HISTORY

By R. W. Brown

(Continued from last week)

The old Pine Grove building was used as a community center for Preaching, Sunday School and Singing for a period of 15 years until the erection of the Arbovale church. At one time when a protracted meeting was in progress, and the school house was packed, hardly standing room, some folks began to shout and jump around, and about that time the floor smashed in, and the stove, fire and all tumbled over in the floor, Mountain to Cassells. This building Excitement prevailed in the school was built at the foot of the mountain house about that time, and the meeting was broken up for the night. The floor was repaired the next day by Hiram Wooddell, and the meeting continued. In 1929 the new Pine Grove Building was erected, which is the lastest style of school architecture, and is an approved plan, by the West Virginia School Board. The
